The operators at the telephone exchange wish to impress on the minds of their patrons that the new system of calling by numbers is purely a business arrangement, and not a personal matter, as some few have supposed. These girls have been instructed to give no phone connections unless the number wanted is given. They must obey their orders. Save them the unpleasant duty of refusing you connection, and accept the matter in the business way in which it is intended. Take into consideration the fact that an operator can not hold her position and disobey the rules of the company she is employed by.

The revival services at the Methodist church opened Sunday with a rapid-fire sermon by Rev. Burke Culpepper, who has continued the services throughout the week. His father, Rev. J. B. Culpepper, is expected to join him at any time, and indeed may be in the city before the paper goes to press. They are a strong team of earnest Christian workers, and much good will probably be done among the sinful of our town before the services close. Man Killed in Wreck.

A bad wreck occurred about three miles out of Honaker on the Russell Fork Transportation Company Railroad last Tuesday in which Elsworth Sanders, a trespasser, lost his life, and four cars were so badly wrecked that two were destroyed and the other two are good only for the scrap in them. The cause of the accident is said to have been the air leaking off the train line, causing the engineer to lose control while coming down the south side of the mountain.

Scenes Change On The "Trail Of The Lonesome Pine"

The mining town of Jenkins, Kentucky, is situated on the spot where the closing scenes of John Fox, Jr.'s story, "The Trail of the Lonesome Pine," is laid. The primitive log house in which the heroine of the story was married to Hale, the engineer, has been torn down, and where it stood now stands the office of the Consolidation Coal Company. One will occasionally meet an ancient character who he will half suspect of being "Uncle Billy Beams" the justice who performed the marriage ceremony on the porch of the old house. But if Hale did bury every bottle and tin can, and take away every sign of civilization from "Lonesome Cove," as he promised his bride he would do, the spectacle thus over it has been broken and soon the whistle of the iron horse will proclaim civilization to the one-time haunts of "Bad Rufe Toliver."
